

# Bridging the Gap - Provider Survey

Many individuals experiencing homelessness need support beyond housing, including healthcare, disability services, and social support.

Following discussions on healthcare and housing at the recent provider conference, the Homeless Services Department (HSD) is seeking your valuable input. Your feedback is crucial in helping us improve support for those experiencing homelessness.

By completing this survey, you will provide essential information to the HSD's Healthcare & Housing Team on:

- Client and provider needs
- Barriers to access
- Existing resources
- Helpful trainings
- Gaps in knowledge and training

Additionally, this survey offers you an opportunity to provide your contact information to receive updates and resources from the Healthcare & Housing Team.
