

Homeless Services Department

Homeless Services Department Contract Monitoring Dashboard Handbook

This handbook offers guidance on how to navigate the Contract Monitoring Dashboard.

This dashboard tracks the extent to which contractors are meeting service delivery expectations and uses a consistent set of standardized outputs and outcomes, found in FY26 contracts. It also includes program targets, set against actual performance, to help identify what's working and where we can improve.

Introduction Page

The introduction page of the HSD Contract Monitoring Dashboard outlines the dashboard's purpose, types of metrics it contains, how the dashboard is organized and what time periods are represented.

To start reviewing information for a provider agency, click on "Let's Get Started: Selections>>" located towards the top of the Introduction page.

Homeless Services Department

HSD Contract Monitoring
FY 2026 (7.1.25 to 9.30.25)
Last refreshed 11.3.25 @ 4:45p (v11.3.25 PRD)

Let's Get Started: Selections>>

What is the Contract Monitoring Dashboard?
The Homeless Services Department (HSD) Contract Monitoring dashboard tracks the extent to which contractors are meeting service standardized outputs and outcomes, found in all FY26 contracts. It also includes program targets, set against actual performance, and compares contractor performance to the same period in the previous year.

What Type of Metrics Are In This Dashboard?
This dashboard contains 3 distinct sets of metrics for each program:
1) Outputs: Quantifiable measures of direct services or activities delivered by a program or provider (e.g. number of individuals served, number of households assisted).
2) Outcomes: Metrics assessing the achievement of intended program results. In homeless services, outcomes often include securing permanent housing, reducing homelessness, and improving participant well-being.
3) Equity: Metrics evaluating whether specific participant populations experience comparable access to services and/or positive outcomes.

Selections Page

There are 4 different filter selections you can make on the Selections page. System type, service category and programs will not be visible until a Contractor ID is selected.

1) HSD Partner ID

- a. Enter your "HSD_" portion of your dashboard login username. For example: HSDxxxxxxxxxx
- b. If you do not enter your login username, you will **not be able to proceed**.
- c. Once your user name is entered, all of your agency's contracted services will appear.
- d. If it appears that the programs listed are NOT associated with your agency, please contact hmishelp@multco.us with the subject line "Contract Monitoring Dashboard" as soon as possible.

HSD Contract Monitoring

1) Input your HSD Partner ID

Enter the "HSD_" portion of your dashboard login username. Example: HSD_xxxxxxxx

Hsd Partner Id

HSD_maxwellx

2) **System Type** Selecting a system type will narrow down the list of programs found under the contract for that system

- a. Unclick “All” found at the top of Select Service System if you want to view only the programs that are under a specific service system
- b. Click on the checkbox by the service system you want to see

2) Select System Type

Selecting a System Type will narrow down the list of contracted programs found in the program instructions by system for the selected Supplier.

- (All)
- Adult
- DV
- Family
- Mixed
- Youth

3) **Service Category Name** Selecting a service category name allows you to narrow down the types of programs you want to see

- a. Unclick “All” found at the top of Select Service Category Name
- b. Click on the checkbox by the service category(s) that you want to see
- c. The list of program names will now reflect only that provider
- d. Keep the checkbox “All” checked if you want to see all programs and not just one type

3) Select Service Category Name

Selecting a Service Category Name will narrow down the types of programs displayed in the dashboard (e.g. only emergency shelters, etc)

- (All)
- Day Center
- Emergency Shelter
- Housing Placement Out of Shelter
- PSH/SH
- RRH/Rent Assistance

Clicking on a service category will narrow list of programs at selected agency

4) Select Contract Program Name

Selecting specific program/s will narrow down the data displayed to that program/s.

- (All)
- Arbor Lodge
- Do Good 82nd (PVI East)
- Do Good Stark Street (Gresham Mo...)
- Harrison Village
- Kenton Veterans Motel
- Roseway Shelter + GPD
- St. John's Village
- Winter and Severe Weather
- Wy'East Adult Shelter

4) **Select Contract Program Name** Selecting a Contract Program Name allows you to narrow down the programs you want to see

- a. Unclick “All” found at the top of Select Contract Program Name
- b. Click on the checkbox by the programs(s) that you want to see
- c. Keep the checkbox “All” checked if you want to see all programs

4) Select Contract Program Name

Selecting specific program/s will narrow down the data displayed to that program/s.

- (All)
- Arbor Lodge
- Do Good 82nd (PVI East)
- Do Good Stark Street (Gresham Mo...)
- Harrison Village
- Kenton Veterans Motel

5) When you have made all your choices, click on “Apply Selections” at the bottom of the Selections Page

[Apply Selections>>](#)

Note: Allow time for the dashboard data to load at this point and again between the dashboard tabs. Loading time may vary depending on traffic and the amount of data selected

Dashboard: YTD – Actuals/Targets

This is the initial dashboard tab that you will land on after you apply your selections is YTD – Actuals/Targets. Use the scroll bars found on the side of the dashboard and in each dashboard section to view all data.

Tab Headers

There are several components on this tab that you will REPEAT when you navigate to the other tabs in this dashboard, including

- 1) **Supplier Name** Contractor that you selected on the upper left-hand corner of the header bar
- 2) <<Back to Selections Click on this button if you want to change the selections you made
- 3) **Contracted Targets** Click on the check box for the associated measures with the types of targets you want to see. Contracted Targets will default to **No Target, TBD, and Yes** filter setting
 - a. **All** Select to see data for all standardized measures that are available for a given contract
 - b. **Measure not in contract** Select for measures that were not listed in your contracts
 - c. **No Target** Select for measures in contract for which there was no associated targets (e.g. No Goal, NA, etc)
 - d. **TBD** Select for measures in contract with targets pending
 - e. **Yes** Select for measures in contract with specific targets listed

4) **Tab Selections** Click on any of the brown tab buttons below to see outputs and outcomes by demographics, quarterly data or for downloading reports.

YTD - Actuals / Targets **YTD-Actuals by Demog** **QTR - Actuals** **Actuals by HMIS ID** **Download** **Download (HMIS)**

YTD (Year to Date)– Actuals/Targets Outputs & Outcomes Data

In this tab, you will find in both table and bar graph format:

- 1) **YTD Actuals** Output, outcome and equity measure calculations from HMIS data that show what happened as of a specific month.
 - o Updates to YTD actuals will occur on a monthly basis and be reflective of YTD actuals as of the month prior.

Note that date of last data refresh and what time period is represented can be found on the Introduction Page.

FY 2026 (7.1.25 to 9.30.25)
Last refreshed 11.3.25 @ 4:45p (v11.3.25 PRD)

2) **Targets** The predetermined goals or benchmarks in program instructions for any given contract

The standardized measures in the selected supplier programs will default to measures that are in each contact for those programs (see above for Contracted Target selection).

Supplier program data is organized into 3 sections:

Note: Comparing actual performance or results against contracted targets helps assess progress, identify performance gaps and make informed decisions by showing whether targets have been met, exceeded or missed.

1) **OUTPUTS** will often represent a direct count of participants or services. Outputs are **numbers** in this dashboard. In the Outputs section you will find:

- Contract Program Name** The name of the program in the program instructions
- Measure Name** The standardized output measures in the program instructions for a given program.
 - Note: Standardized measures will change depending on a given program
- YTD Actuals** Metric calculations in a table by the associated output measure and represented by the orange bar in the bar graph
- Targets** The program deliverable targets set in the program instructions in the table by YTD actuals and represent by the dark grey dot on the bar graph

2) **OUTCOME** represent the changes or benefits experienced by people as a result of the program focusing on the quality and impact of a service. Outcomes measures are **percents** in this dashboard.

- Outcomes data is organized in the same way as Outputs above

3) **EQUITY** metrics assess the extent to which participants in a given program are similar to the demographic characteristics of a comparison population.

Comparison groups listed in the Measure Names below are applicable to the service category for that program and are as follows:

- a. All Homeless by-name-list for coordinated access and shelter programs
- b. All Systems by-name-list for rapid rehousing and supportive services programs
- c. All Systems Population A by-name-list for permanent supportive housing programs
- d. ACS Survey <125% FPL for homelessness prevention programs
- e. A subpopulation of youth ages 13 - 25 will be applied to each of the respective comparison groups listed above for youth programs

Equity data is organized in the same way as Outputs above, with 1 exception: Equity Target Met represents whether or not the population served is comparable to the comparison groups listed above. Met = BIPOC participant group is comparable. Not Met = BIPOC participant group in NOT comparable.

Note: A program is considered "equitable" if all 5 BIPOC program participants racial/ethnic groups (Black, Indigenous, Hispanic, Asian, or Pacific Islander) served are equal to, or within 2% of, or above each group's representation in the comparison population.

Equity Metric should ONLY be applicable to programs who serve >100 participants per year and that are not culturally-specific providers.

YTD - Equity Measure					
Contract Program Name	Measure Name	?	YTD	Target	Equity Target Met?
Program A	% Asian population in All Homeless BNL	0%	2%	Met	
	% Black population in All Homeless BNL	21%	23%	Not Met	
	% Hispanic population in All Homeless BNL	8%	17%	Not Met	
	% Indigenous population in All Homeless BNL	8%	11%	Not Met	
	% Native Hawaiian/Pacific Islander population in All Homeless BNL	0%	1%	N/A	
	% Pacific Islander population in All Homeless BNL	6%	4%	Met	
	% Unknown/Unreported race/eth in All Homeless ..	1%	9%	N/A	
Not Met = Not Comparable representation					
Met = Comparable representation					

Tool Tips

An additional feature can be found on this tab (and subsequent tabs) – Tool Tips. A tool tip can be generated by hovering your mouse over a bar graph or target. Different tool tips, may contain different information, but in the example provided you can find

- 1) Contracted Program Name
- 2) Measure Name for that given bar on the bar chart

- 3) **Measure Definition** more information on how any given measure is calculated
- 4) **YTD** year-to-date actuals for that program measure
- 5) **TARGET** the target for that program measure
- 6) **HMIS Projects Contributing to the Measure** which HMIS provider projects feed into that program measure calculation give that there can be more than 1 HMIS provider project associated with a given program

195		Tool tip for measure by hovering on bar graph actual
1) Contract Program Name:	Program A	
2) Measure Name:	# of unduplicated participants served	
3) Measure Definition:	The unique count of individuals with either a new entry or an open entry in the program during the reporting period.	
4) YTD:	195	
5) TARGET:	300 (Contracted Target=Yes)	
HMIS Projects Contributing to the Measure:		
6) HMIS Project Name and ID A		
HMIS Project Name and ID B		

Note: On other tabs without graphs, hover over the actuals number in table for the tool tip.

Dashboard: YTD – Actuals By Demog

The YTD- Actuals By Demog is the 2nd tab displaying year to date information on participants served in contracted programs. When you click on this tab, the default demographic category selected will be Race/Ethnicity.

YTD - Actuals / Targets	YTD - Actuals by Demog	QTR - Actuals	Actuals by HMIS ID	Download	Download (HMIS)				
Select Demographic Category									
Race/Ethnicity									
American Indian, Alaska Native, or Indigenous									
Asian or Asian American									
Black, African American, or African									
Hispanic/Latino/o									
Multiple Race/Ethnicities									
Native Hawaiian or Pacific Islander									
Unreported									
White									
YTD - Output									
Contract Program Name	Measure Name	American Indian, Alaska Native, or Indigenous	Asian or Asian American	Black, African American, or African	Hispanic/Latino/o	Multiple Race/Ethnicities	Native Hawaiian or Pacific Islander	Unreported	White
Program A	# of unduplicated HH served	0%	2%	20%	20%	30%	10%	0%	40%
	# of unduplicated participants served	0%	3%	12%	21%	16%	23%	0%	26%
	Average Length of Stay in Days	32%	109%	93%	37%	65%	132%	73%	35%
YTD - Outcome									
Contract Program Name	Measure Name	American Indian, Alaska Native, or Indigenous	Asian or Asian American	Black, African American, or African	Hispanic/Latino/o	Multiple Race/Ethnicities	Native Hawaiian or Pacific Islander	Unreported	White
Program A	% of exits to permanent housing			100%	0%	92%	45%		79%
	% of HHs assessed using a Coordinated Assessm.		20%	23%	13%	10%	14%		24%

Tab Headers

The same tab headers seen in YTD-Actuals/Targets will repeat on this tab with one exception: **Contracted Targets** will not appear on this page; instead, all standardized O&Os will appear for demographic calculations regardless of contract inclusion.

- 1) **Select Demographic Category** Click on one of the four options in the drop-down bar to choose a demographic category:
 - a. BIPOC
 - b. Race/Ethnicity
 - c. Gender Identity
 - d. Age

YTD - Actuals / Targets YTD - Actuals by Demog QTR - Actuals Actuals by HMIS ID Download Download (HMIS)

Select Demographic Category

- Gender Identity
- BIPOC
- Race/Ethnicity
- Gender Identity
- Age

YTD - Actuals by Demog Outputs & Outcomes Data

Data on this page is organized in the same way as the YTD-Actuals/Targets page with one exception: **Equity Metrics** are not included as demographics are integrated into all outputs and outcomes on this page.

- 1) **OUTPUT** demographics are representative of the percent of either **participants** or **households** that fall into any given demographic group.
 - a. For example, when looking at the # of HHs served in Program C. 20% of households (heads of households) are Black/African American. This is different than the percent of all participants that are Black/African American (12%) within those households.
 - b. The same might be true for gender identity and age as well

- 2) **OUTCOME** demographics represent something slightly different. Outcome demographics represent the total percent of people in that demographic group

that is experiencing a specific outcome. This percent can be compared to other demographic groups outcome experience.

- For example, the % of exits to permanent housing among Black/African American participants is 100% for Program C, but 45% among Native Hawaiians/Pacific Islanders. This may represent a difference in this outcome by race/ethnicity.

YTD - Outcome								
Measure Name	American Indian, Alaska Native, or I...	Asian or Asian American	Black, African American, or African	Hispanic/Latina/o	Multiple Race/Ethnicities	Native Hawaiian or Pacific Islander	Unreported	White
% of exits to permanent housing			100%	0%	92%	45%		79%
% of HoH assessed using a Coordinated Assessm..	20%	23%	13%	10%		14%		24%

Note: Program instructions state that outcomes will be compared to the race/ethnicity distribution among participants served in that program with the goal of percentages being comparable. These metrics can also be applied to other demographics, such as gender and disability status.

Dashboard: QTR - Actuals

The QTR - Actuals tab displays both quarterly and year to date outputs and outcomes data for contracted programs in a table format.

YTD - Actuals / Targets	YTD-Actuals by Demo	QTR - Actuals	Actuals by HMIS ID	Download	Download (HMIS)	<input checked="" type="checkbox"/> Yes		
QTR - Output Measures								
Outputs are typically the direct result of a program or activity. Outputs are typically the count of who is served or what service is provided.								
Contract Program Name	Measure Name	Target	Qtr 1 (Jul-Sep)	Qtr 2	Qtr 3	Qtr 4	YTD	
Program A	# of emergency shelter units	106	106				106	
	# of unduplicated participants served	300	195				195	
	Average Length of Stay in Days	180	67				67	
QTR - Outcome Measures								
Outcomes are the changes or benefits experienced by people as the result of the outputs. They focus on the quality and impact of a service.								
Contract Program Name	Measure Name	Target	Qtr 1 (Jul-Sep)	Qtr 2	Qtr 3	Qtr 4	YTD	
Program A	% occupancy	90%	89%				89%	
	% of exits to permanent housing	30%	12%				12%	
	% of HoH assessed using a Coordinated Assessment Tool	25%	19%				19%	
QTR - Equity Measures								
Equity in people served is a measure of representation. It's the extent to which the race/ethnicity of the population you serve is proportional to or similar to the demographic characteristics of a comparison population.								
Contract Program Name	Measure Name	Target	Equity Target Met?	Qtr 1 (Jul-Sep)	Qtr 2	Qtr 3	Qtr 4	YTD
Program A	% Asian population in All Homeless BNL	2%	Met	0%				0%
	% Black population in All Homeless BNL	23%	Not Met	21%				21%
	% Hispanic population in All Homeless BNL	17%	Not Met	0%				0%
	% Indigenous population in All Homeless BNL	11%	Not Met	0%				0%
	% Middle Eastern/North African population in All Homeless BNL	1%	N/A	2%				2%
	% Pacific Islander population in All Homeless BNL	4%	Met	6%				6%
	% Unknown/unreported race/ethn in All Homeless BNL	9%	N/A	1%				1%
	% White (alone) population in All Homeless BNL	49%	N/A	50%				50%

Tab Headers

The same tab headers seen in YTD-Actuals/Targets above will repeat on this tab

QTR (Quarter) Outputs, Outcomes & Equity Data

On this page you will find a table with the program name, measure name, target and YTD totals as seen in the YTD- Actuals/Targets tab. Instead of bar graphs comparing YTD totals against targets, you will find additional table columns for each quarter for the fiscal year as represented by:

Qtr 1 July 1 – Sept 30th time period

Qtr 2 Oct 1 – Dec 31st time period

Qtr 3 Jan 1 – March 31th time period

Qtr 4 April 1 – June 30th time period

Qtr 1 (Jul-Sep)	Qtr 2	Qtr 3	Qtr 4	YTD
106				106
195				195
67				67

Q1 Q2 Q3 Q4 YTD

The output and outcome actuals found in each of the quarters will be reflective programs data for that **specific quarter time period**.

This differs from YTD totals which represent the actuals from the beginning of the Fiscal Year to the current point in time. Actuals might change in a given quarter or YTD based off of ongoing data entry and cleaning for any given quarter.

Note: *Year to date actuals is not the summation of quarterly totals. For example:*

350 participants served in Q1 +

300 participants served in Q2

does NOT mean

650 participants served year to date.

The YTD total number of participants served will be 350 or greater, but likely lower than 650. However, 1st Q actuals will be the same as YTD actuals because it's reflective of same time period

Actuals by HMIS ID

The Actuals by HMIS ID tab displays both quarterly and year to date outputs and outcomes data for any given HMIS ID associated with the contracted programs. If there is more than 1 HMIS ID associated with any given contracted program, having actuals by HMIS ID allows you to see how each HMIS provider project contributes to the totals seen on the YTD – Actuals/Targets, YTD – Actuals by Demog, and QTR – Actuals tabs.

YTD - Actuals / Targets	YTD-Actuals by Demog	QTR - Actuals	Actuals by HMIS ID	Download	Download (HMIS)

			04 White (alone) population in All Homeless BNL	0.58				0.58	0.49

To download this report into Excel

- 1) Click on the download icon in the top righthand corner of the dashboard
- 2) Select the “Crosstab” dropdown option
- 3) Make sure that the FY26 Q(X) Reporting option is checked under “Select a sheet from this dashboard”
- 4) Make sure Excel is checked under “Select Format”
- 5) Then click the Download button

A report will be created in Excel containing the information seen on the Download tab.

The screenshot shows an Excel spreadsheet with the following data:

Service	Category	Contract	Program	Pro	Measure	Type	Measure	Nar	Outcome/Eq	Update	Defin	Qtr 1 (Jul-Sep)	Qtr 2	Qtr 3	Qtr 4	YTD	Target#
Emergency			A		# of emerger		The total cou	106.00								106.00	106.00
					# of unduplic		The unique c	195.00								195.00	300.00
					Average Ler		The mean nu	66.98								66.98	180.00

					% Hispanic p	(Numerator:	Target = % c	0.02								0.02	0.11
					% Indigenous	(Numerator:	Target = % c	0.06								0.06	0.04
					% Unknown	(Numerator:	Target = % c	0.01								0.01	0.09
					% White (alo	(Numerator:	Target = % c	0.58								0.58	0.49

To adjust this spreadsheet so that the columns and rows are more easily readable, you can do the following:

- 1) Adjust the font type and size to preference
- 2) Adjust the column and row size to preference
- 3) Highlight all columns and wrap the text so that it is all visible in a single cell and adjust rows/columns again to preference

There are 2 additional columns in the downloaded excel report that are not seen in the any the Download tab (or any of the other data tabs) except in the tool tip bars - Outcome/Equity Measure Calculations and Definition.

- 1) **Outcome/Equity Measure Calculations** provides the exact numerator and denominator actuals used in calculating the outcome or equity metric actual seen.
- 2) **Definitions** provides more information about what any given measure means, a general data dictionary. These are the same definitions found in Tool Tips.

Measure Type	Measure Name	Outcome/Equity Measure Calculations	Definition	Qtr 1 (Jul-Sep)
outcome	% occupancy	(Numerator: Count of unit-nights occupied = 4753) / (Denominator: Count of unit-nights available = 5316)	The percentage of the total available unit capacity that was occupied during the reporting period.	0.89
	% of exits to permanent housing	(Numerator: Count of participants who exited shelter to a PH location = 13) / (Denominator: Count of participants who exited shelter = 106)	The percentage of individuals who exited during the reporting period to a permanent housing exit destination.	0.12
	% of HoH assessed using a Coordinated Assessment Tool	(Numerator: Count of participants who were assessed for Coordinated Access = 37) / (Denominator: Count of participants = 195)	The percentage of individuals enrolled in the program who successfully completed a Coordinated Access assessment (aka MSST).	0.19

Download (HMIS)

The Download (HMIS) tab allows you to download all HMIS IDs associated with any given contracted program. This is useful to confirm whether the actuals that are being generated for each contracted program are pulling from the correct corresponding HMIS provider project.

Service Category Name	Contract Program Name	HMIS Project(s)

If incorrect HMIS IDs are associated, please contact hmishelp@multco.us to let us know what needs to be changed.

Data Dictionary

The Data Dictionary tab outlines all of the standardized metrics associated with each of the contracted programs as determined by the programs service category. For example, Day Centers, Emergency Shelters and PSH/SH programs would each have a unique set of standardized metrics associated with them.

To go to the data dictionary tab, click on the tab in the upper right-hand corner of the dashboard.

Supplier System Type Desc				Service Category Name
Supplier System Type Desc		Service Category Name		
Service Category Name	Measure Type	Measure Name	Measure Source	Definition
Day Center	output	# of day center visits	HSD	The total count of visits (limit 1 per day) at a Day Center during the reporting period.
		# of HH served [receiving day center services]	HSD	The unique count of households (HH) who received Day Center services during the reporting period. This metric is based on services not entry/exports.
		# of individuals receiving case/care management services	HSD	The unique count of individuals who received at least one instance of formal case management or care coordination service.
		# of individuals receiving emergency shelter referral services	HSD	The unique count of individuals who received a documented referral for emergency shelter placement.
		# of individuals receiving housing counseling services	HSD	The unique count of individuals who received housing-focused counseling or education.
		# of individuals receiving housing related coordinated entry services	HSD	The unique count of individuals who received any service directly related to the Coordinated Entry process (e.g., intake, prioritization).
		# of individuals receiving peer counseling services	HSD	The unique count of individuals who received support or counseling services provided by a peer (with lived experience).
		# of individuals receiving temporary financial assistance services	HSD	The unique count of individuals who received short-term financial aid (e.g., security deposit, utility help).
		# of unduplicated participants served [receiving day center services]	HSD	The unique count of individuals who received Day Center services during the reporting period. This metric is based on services not entry/exports.
	outcome	% of HoH assessed using a Coordinated Assessment Tool	HSD	The percentage of individuals enrolled in the program who successfully completed a Coordinated Access assessment (aka MSST).

Note: Not ALL standardized metrics can be found in contract/program instruction with program targets. Actuals will still be calculated for these measures if the data currently exists in HMIS within the calculation parameters (e.g. if data is not entered in HMIS or is entered into a unique location, actuals may not be calculated).

Additional Information

Links for more information can be found on the [Contract Monitoring Dashboard Landing Page](#), including

- **HSD Contract Monitoring Dashboard** the link to the secure server where the dashboard is stored
- **HSD Contract Monitoring Access Form** to complete in order to gain access to this dashboard
- **How to Access the Contract Monitoring Dashboard** a simple guide for navigating to the dashboard once access has been granted
- **Video Training** provides a video overview of how to use the Contract Monitoring Dashboard and the information that it contains
- **Frequently Asked Questions (FAQs)** that the Data Team has received regarding this dashboard from both HSD staff and providers

If you have additional questions for us, please send them to [**hmishelp@multco.us**](mailto:hmishelp@multco.us). We will add general questions (non-provider specific) and responses to the FAQ page.
